# About tandem

In a tandem language exchange students who would like to practice their language skills individually and for free, have the possibility to meet language partners. When you apply, where possible you will be assigned to a native speaker of the language you would like to learn. You may then arrange meetings with your language partner at a time and place that is convenient to you both. All language partners teach their own language and learn their partner's language as well. It is up to each of them to decide how they learn, what they want to learn and how frequently they want to meet.

When learning languages individually there are no limits to the imagination: why not learn new words while cooking together or meet at an exhibition about cultural diversity? After all a tandem exchange is not only supposed to improve language skills, but should also provide an insight in foreign cultures. And as learning a language works best when you are having fun, you will soon be rewarded for your time and effort.

## How to apply

To apply for the tandem language exchange, you will need to fill in a registration form. This can be found on our website and either submitted by post or by email. Alternatively you may hand it in at our office. You will be registered and then contacted once we have found an appropriate language partner for you. Should you have any questions, please do not hesitate to contact us.
